Activities that Both Occupations Have in Common		Similarity of Focus Occupation to Associated Occupation: 100
Focus Occupation: Oral and Maxillofacial Surgeons (29-1022) Associated Occupation: Prosthodontists (29-1024)		
Work Activities	Exclusivity of Activity	
Administer anesthetics	77	
Administer injections	60	
Administer medications or treatments	46	
Analyze dental data	89	
Calculate medical dosages	77	
Collect dental laboratory diagnostic data	89	
Communicate technical information	4	
Conduct patient assessments	69	
Follow clinical radiation safety procedures	77	
Follow dental or medical x-ray procedures	81	
Follow infectious materials procedures	52	
Follow patient care procedures	60	
Follow surgical procedures	81	

Identify body response variations	57
Interpret medical laboratory test results	72
Interpret x-rays	76
Make decisions	24
Make presentations on health or medical issues	50
Monitor patient's condition	87
Obtain information from clients, customers, or patients	40
Prepare patient reports	66
Prescribe or recommend drugs, medical devices or other forms of treatment	76
Understand properties or composition of drugs	64
Understand technical operating, service or repair manuals	6
Use clinical problem solving techniques	69
Use dental treatment procedures	87
Use emergency medical treatment procedures	76
Use interpersonal communication techniques	10
Use knowledge of dental terminology	87
Use knowledge of medical terminology	40
Use medical diagnostic techniques	71
Use medical equipment in direct patient care	75
Use research methodology procedures in health care	63
Use sanitation practices in health care settings	48
Write technical health or medical documents	73

Not all positions in these occupations will necessarily perform all of the listed activities. The exclusivity rating is an indication of how unique the activity is amongst all occupations. The maximum rating is 100. High scores indicate that only a small number of occupations engage in that activity.
